Education

•National Institute of Technology, Warangal *2021-2025*
B.tech in Electrical and Electronics Engineering CGPA: 8.12/10

•Narayana Junior College, Hyderabad *2019-2021*
Board of Intermediate Education, Telangana Percentage: 98.2

Experience

•Rapido *July 2025–Present*
Software Engineer

- Work across **full-stack development** building React and Next.js frontends with Golang (Gin) backends, following a BFF architecture pattern with clean separation of concerns.
- Design and maintain **large-scale data pipelines** using Apache Spark and GCS, handling **1,800+ metrics across 180 Airflow DAGs** for business-critical reporting and data quality workflows.
- Work extensively with **Apache Airflow** for DAG orchestration; profiled parse-time bottlenecks using Python `cProfile`, reducing DAG load latency from **∼4.4s to ∼0.5s**.
- Manage and optimise **Kubernetes clusters on GCP** for Spark workloads, including right-sizing driver/executor resources to reduce cluster overprovisioning and compute costs.

Personal Projects

•AIRBNB Booking Website
A room booking website using MERN Stack web development

- Tools & technologies used: MongoDB, Node.js, React.js, Express.js, Postman
- Developed a user-friendly room booking platform with comprehensive account management and room availability features with their locations
- Integrated secure authentication and authorization mechanisms to protect user data and ensure privacy.

•Gym Database Management System
A Relational Database Management system to provide comprehensive information on gym memberships,trainers, and equipment

- Tools & technologies used: MySQL,Github
- Designed and implemented a relational database to manage and organize data related to gym memberships, class schedules, trainers, and equipment inventory.
- Developed ER diagrams and normalized database schema to eliminate redundancy and ensure data integrity.
- Created complex SQL queries to facilitate efficient data retrieval and reporting.

Technical Skills and Interests

Languages: Golang, SQL, JavaScript (ES6+), C++
Frameworks / Libraries: React.js, Next.js, Express.js
Data Streaming: Apache Spark, Apache Airflow, Kafka
Databases: MySQL, PostgreSQL, MongoDB, BigQuery
Cloud / DevOps: Google Cloud Platform (GCP), Kubernetes, Docker, GOCD
Developer Tools: Git, GitHub, Visual Studio Code, IntelliJ, Postman
Coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, OOPs
Areas of Interest: Distributed Systems, Backend Engineering, Data Pipelines, System Design

Positions of Responsibility

- Executive Member in Electrical Engineering Society *2023-24*
- Workforce in Technozion conducted by NITW *2024*

Achievements

- Solved 600+ problems on coding platforms like Leetcode,GFG,Code Studio
- AIR-9550 in JEE-MAINS *2021*
- State Rank-1300 in TS-EAMCET *2021*
- State Rank-29 in TS-POLYCET *2019*
